Career Experience

Process Associate — Capgemini (September 2025 – February 2026)

- **Joined** through vendor deployment; supporting business process operations and documentation tasks.
- Assisting in workflow optimization, data management, and client coordination.
- Ensuring timely and accurate execution of assigned operational processes.

Broadcast IT Engineer – Intern

DishTV — Greater Noida (March 2025 – September 2025)

- **Headend Operations Support:** Monitoring and maintaining encoders, modulators, and multiplexers, ensuring smooth signal transmission.
- **Reporting & Documentation:** Generated detailed **daily/weekly operational reports**, tracked incident logs, and documented system behavior to support performance analysis and audits.
- **Linux & Scripting Tools:** Used **Linux CLI** for system operations and developed basic **Python/Shell scripts** to automate monitoring tasks and improve efficiency.

Cryptocurrency Market Research & Blockchain Analysis (2019 – 2023)

- Performed CryptoCurrency market research and digital asset analysis focusing on token utility, market capitalization, liquidity metrics, price trends, and investor Sentiment.
- Participated in blockchain Testnet environments and smart contract testing on Ethereum, BNB Smart Chain, and Polygon networks.
- Developed practical knowledge of cryptocurrency wallets, DeFi protocols, token standards (ERC-20/ERC-721), staking mechanisms, liquidity pools, and blockchain transaction flows.
- Conducted research and Crypto project due diligence on emerging blockchain projects through analysis of whitepapers, tokenomics, governance models, and project roadmaps.
- Analyzed on-chain wallet activity and token transactions using blockchain explorers to understand transaction flows, wallet interactions, and asset movement across blockchain networks.

SKILLS

- **Data Analysis:** Proficient in Excel, SQL, Power BI, and Python for data analysis and reporting.
- **Data Visualization:** Experienced in creating dashboards and visual reports using Power BI.
- **Database Management:** Skilled in SQL, database design, and management.
- **Programming:** Knowledge of Python for data manipulation and analysis.
